WHAT IS THIS? The Art Neighborhood is a fun, whimsical art installation on display at Jack The Pelican Presents in Brooklyn, NY. This neighborhood is a shanty town style model and like every town or neighborhood, has people. However, this neighborhood has real people that are represented through custom made action figures. We need your involvement. We need an action figure of you!

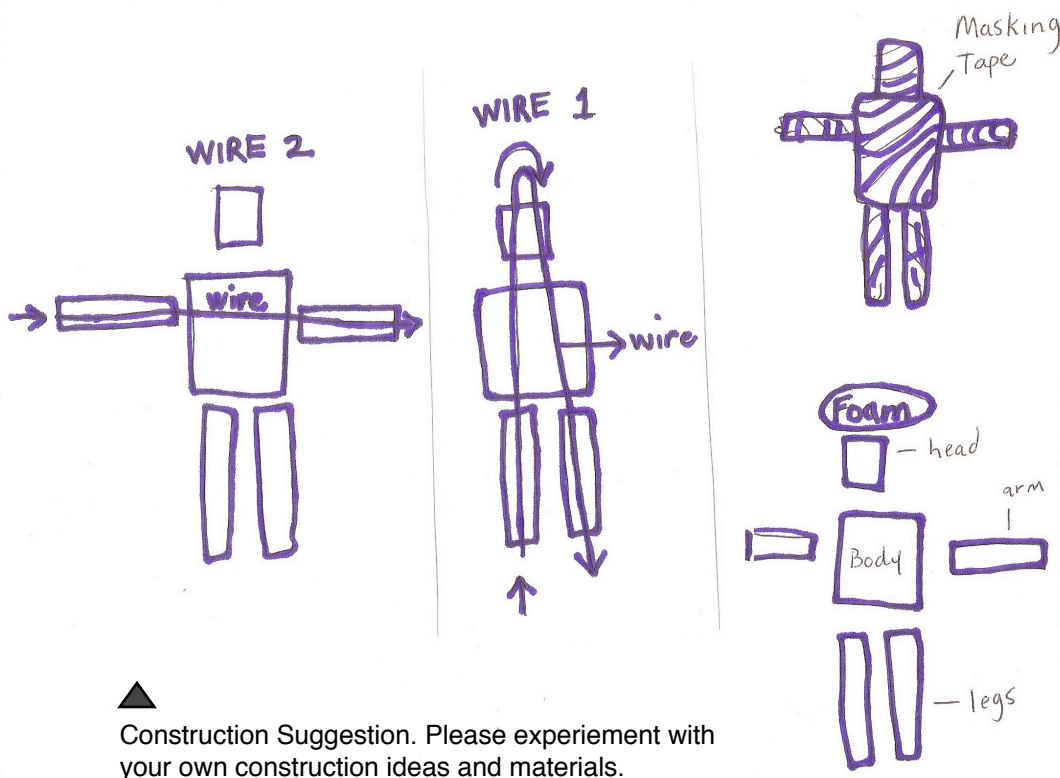

WHAT YOU NEED:

Materials: FOAM, WIRE, MASKING TAPE, FABRIC, PAINT

Follow the directions to build the base model of your action figure.

Once this is complete, you can decorate and dress your action figure.

REMEMBER: Action Figures are between 6 and 8 inches tall. Figures over 9 inches will be too tall and will not be allowed.

DECORATION:

Personal Significance: Character development will be largely based on a sense of self-identity. This action figure is a mini-you + a mini-what-you-want-to-be.

HOW WILL YOUR INNER-SENSE-OF-SELF MANIFEST IN YOUR ACTION FIGURE IN TERMS OF SHAPES, COLORS, PERSONA, OUTFITS, ETC?

Complete the questionnaire below to get inspiration for your action figure.

QUESTIONNAIRE:

What is your favorite color?

What is your favorite food?

Do you have a nickname?

What is your favorite quote?

If you had a super power, what would it be?

What is your favorite activity?

To fill out the questionnaire, please print this document.

GUIDELINES:

Please make sure your action figure is the proper size and is PG rated - no sexual scenes, nudity or unsavory behavior will be included in the art installation.

Action Figures that are delivered to The Art Neighborhood are considered donated and become the property of the artist.

After the art show, action figures may be sold to the public. The artist's proceeds from donated action figure sales will be paid to Making Art Work - a program of the Carter Burden Center for the Aging.

ABOUT THE ART NEIGHBORHOOD

Art Neighborhood studies and celebrates beings being removed from their origins to flourish in another more fertile field of space and time. Once ideas and concepts are transplanted and reapplied they are seen freshly, can take on new life, expand and grow in new directions and give us the unexpected. The unexpected transports, humbles and empowers us. It startles, delights, stimulates and inspires. All the things needed to evolve. Rather than being direct and explanatory the power of unexpected imagery creates a world you can inhabit.
